

Baldy's Barber Shop Practice Set Course

Getting Started Guide

Objective

Baldy's Barber Shop was made to provide the accounting and bookkeeping student with an overview of how the manual concepts taught in an introductory accounting course can be applied to a **manual** and **computerized** accounting system. In addition, the practice set illustrates the benefits of using a computerized accounting system.

Basic Background

Baldy Jones after working for others for 10 years decided to open his own barber shop called Baldy's Barber Shop. After meetings with Dave Marshall from Bean Counter he learned about the necessary licenses and what is necessary to open and run a successful business.

He leased space for his shop and December 1, xxxx invested \$15,000 of his personal funds and began setting up his business and acquiring some needed services.

He planned on beginning cutting hair about the middle of December.

Your Tasks

Record the transactions for the month of December using a manual system, spreadsheet system, and computer system.

Course Delivery

The course is designed as an offline course and purchased and downloaded as a compressed file (zip file) – BaldysBarberShop.zip.

Unzip the file to a location on your computer where you want the files located.

After unzipping the file, the course materials are located in a main folder and sub folders (See Below).

Course Needs:

1. Computer and Printer
2. LibreOffice -Free Version Available (Windows and Mac) and Microsoft Excel

LibreOffice Writer can be used to view and print all worksheets and manuals.

LibreOffice Calc or Excel can be used with Baldy's Spreadsheet Exercise

Manager Accounting Software – Free Desktop Version Available (Windows and Mac)

- **Download and Install Needed Software**

Brief Reviews - BaldysBarbershop\BriefReviews\

Assignments

The practice set is composed of three assignments:

- Baldy's Manual System

Using the chart of accounts, transactions listing, and adjusting entries listings you record the transactions in the General Journal, post the entries to the General Ledger, and use the Financial Statements Worksheet to prepare Financial Statements. Closing Entries are not required for this exercise.

Note: Use the month of **December 2017** to enter the transactions.

Detailed Instructions are provided here

- Baldy's Spreadsheet System
 - General Journal
 - Special Journals

Using the Spreadsheets provided you input the transaction information using input screens and the information is automatically posted to the Journals, General Ledger, and Financial Statements Worksheet. The Financial Statements are also automatically prepared.

Detailed Instructions are provided here

BaldysBarberShop\BaldySpreadSheetSystem\Instructions\Instructions.pdf

The General Journal Exercise only uses the General Journal for recording transactions while the Special Journals Exercise uses Special Journals for recording transactions.

Adjusting Journal Entries have already been recorded for you. Closing Entries are not required for this exercise.

- Baldy's Computer System

In this exercise, you use the Manager Accounting Accounting Software and the transaction listing, adjusting journal entry listing, closing entries listing and input screens to record the entries for the period.

Detailed Instructions are provided here

BaldysBarberShop\BaldyComputerSystem\Instructions\Instructions.pdf

The data file Baldy'sBarberShop.manager provided is imported into the Accounting Software. The chart of accounts, bank account, and suppliers have already been setup.

All journals and financial statements are automatically posted and updated. One of the major benefits of using Bookkeeping and Accounting Software.

Baldy's Barber Shop-Answers.manager also needs to be imported so you can check your results.

Each assignment contains additional detailed instructions about what is required and how to complete the lesson.

Answer Sheets are provided for all assignments.
